

ART CURRICULUM OVERVIEW

ART STATEMENT OF INTENT

The intent of the curriculum is to give the children the freedom and opportunity to develop a range of art skills to produce a final piece to be proud of. We aim to have teachers regularly teaching Art in class throughout the year, giving children the opportunities to gain skills and knowledge of that subject. We aim to encourage children's enthusiasm in Art by increasing the range of opportunity for children to engage in Art lessons that are stimulating and enriching. We implement this through regular and open lessons where children express and develop and have an opportunity for freedom whilst exploring a range of artists and styles. Throughout the curriculum, the children have an opportunity to show off their personalities and shine and blossom in their own unique way, this is celebrated throughout school.
